## MY LAST HOLIDAY

My last vacation was with my whole family (my dad, mom, brothers, and me), we were in Montañita, specifically in Dos Mangas, which is very close to there.

I can say that Montañita has stood out for having a very good atmosphere, and of course, for its great food. The vast majority of restaurants sell seafood, as it is a fishing area. Of course, there are also restaurants where not only sell seafood, usually in the central area and in the village, there is much more variety of food, whether bakeries, candy stores, etc. Of course, the cocktail bar is not far behind, as mentioned before, Montañita noted for its parties and good atmosphere, which is why there are millions of cocktail stands, not only on the beaches, but also around the whole area.

Although it has been months of these wonderful vacations, I could say that they are very special for me and my family, since my dad's job does not give him many vacations, besides that we do not see him very often for his work. It was my dad who took the initiative to travel, since he had been given a week off, so we made the most of it!

Also, during the trip we went to many places, like Olon, which is a place with very nice and

clean beaches. Then from there we went to the center of Montañita (the most touristic area), in my opinion very nice, the only problem could be that there were a lot of people, as it is a touristic area it is usually very crowded, but from there everything was very nice. Previously we had gone with an aunt of my dad to an Italian ice cream shop that was very close to the center of Montañita, and as we liked it very much, we went again, but this time with my whole family.
